1. A wheelchair curler, or competitors with declared and confirmed mobility issues, if they so choose, can have a designated Ice Player Assistant (IPA) during play, per impacted curler. The IPA could hold/brace the wheelchair and position/clean rocks for delivery. The same IPA could also sweep for the impacted player only at the direction of the delivering partner competitor and only in the “in play area” (from the hogline to the back line), including opponent’s stones behind the tee line. The IPA would also catch wayward stones when needed. IPA’s would not be allowed to be involved in the shot calling or strategy discussions during a game. In the event that an IPA is the declared coach of the team they could participate in strategy only during the approved timeouts during the game. For safety reasons the IPA would need to wear proper footwear to actively participate on the ice.
